

LEARNING PROFILE

HOW TO USE

Taking a few minutes at the beginning of each year or semester to think about who your child is and what they need in that moment, can help you create a learning program that meets them where they are.

Complete one page per child & per parent.

Definitions:

Learning Style: This is the way you learn the best. There is a link embedded in the title if you're unsure which style fits best.

Support Needs: These are areas you'll want to spend extra time on or keep in mind as you work together. They can be academic needs, behavioral, social, etc.

Favorite Way to Learn: This is related to learning style but more specific. Possible answers may include words like videos, reading, group work, projects, games, etc.

Interests: These are topics your child loves talking about and will spend their free time engaged in or learning about.

Dislikes: These are activities, places, or topics (not academic subjects) that your student will want to avoid if possible.

Favorite / Least Favorite Subjects: These are areas of academic learning that your child loves or dislikes.
